## SAN DIEGO CHAPTER

The Society for Design Administration

*An Affiliate of the American Institute of Architects*

*The Society for Design Administration advances management and administrative professionals in the A/E/C industry.*

### Business Continuity and Disaster Recovery

**September 17, 2009**

**Conducted by:**  
**Greg C. Glasgow**  
**LANSolutions**

**Hosted by:**  
**Cavignac & Associates**  
**450 B Street, 18<sup>th</sup> Floor, San Diego 92101**

With ever-growing data stores, larger files, and so much sensitive information on a company's network, the need to securely store your data is mission critical. The lack of proper security for your data can have staggering financial, legal, and productivity ramifications on your business. Greg will explain some methods by which you can insure that your data is safely and efficiently backed up and made available, whether your need is to satisfy a compliance issue or to recover from a major catastrophe.

**Greg C. Glasgow**  
*Executive Vice President/Chief Technology Officer*

As the Chief Technology officer for LANSolutions, Greg Glasgow's responsibilities center on understanding a broad range of local and wide area networking solutions as they apply to the LANSolutions business model. With over 20 years of networking experience, Greg plays a critical role in the most complex and larger installations and consulting projects and Greg is involved in the design and architecture phases of all projects. Greg's expertise includes training and certifications in products and solutions by SonicWall, Watchguard, Citrix, VMware, Cisco and Microsoft. Prior to co-founding LANSolutions, Greg was the Executive Director of Technical Services for the West Coast of LANSystems. Greg received his Bachelor of Science degree from the University of Dayton in Ohio.
